# Imported and Domestic Clay Pipes.

All our Clay Pipes are packed in strong boxes and are marked in large letters, **C. Z.**

Be careful to buy no others than those marked "C. Z." with the number of Pipe on one side, and stating the number of gross on the other, as these are the only Pipes in which you are sure to have full count. There are a great many clay pipes sold at so much per box which are marked three gross, but are not full count. We guarantee all our clay pipes to be full count.
